University of Agriculture, Faisalabad

Relevant courses: Data Structures, Web Development, Databases, OOP

FSc Pre-Medical (2021 – 2023)

Marks: 753/1100

Govt. Degree College Fazil Pur

Matriculation (2019 – 2021)

Marks: 918/1100

Government High School Mehrewala

SKILLS

HTML5/CSS3

JavaScript (ES6+)

Tailwind CSS

Bootstrap

React (learning)

REST APIs

Git/GitHub

Netlify/Vercel

Responsive Layouts

PROJECTS

Movie Search App

- Integrated OMDB API to fetch movie details like title, genre, poster, release date.
- Added 300ms debounce on search input to reduce unnecessary API calls while typing.
- Designed responsive layouts for mobile, tablet, and desktop devices using Tailwind CSS.

[Live Demo](#) [GitHub](#)

Weather App

- Used OpenWeatherMap API to show temperature, humidity, wind speed, feels-like, and pressure.
- Stored last searched city in LocalStorage for automatic loading on revisit.
- Designed responsive layouts for mobile, tablet, and desktop devices.

[Live Demo](#) [GitHub](#)

Restaurant Website (Feance)

- Created a restaurant landing page with menu filtering (breakfast, lunch, dinner) and smooth scroll.
- Used lazy loading for images to improve page load time on slow connections.
- Designed responsive layouts for mobile, tablet, and desktop devices with a hamburger menu.

Portfolio Website

- Built personal portfolio to showcase projects, skills, and contact information.
- Used Flexbox and Grid for clean, modern layout.
- Designed responsive layouts for mobile, tablet, and desktop devices.

[Live Demo](#) [GitHub](#)

Calculator App

- Performs basic arithmetic: addition, subtraction, multiplication, division.
- Handles edge cases like division by zero and invalid inputs.
- Supports keyboard input (numbers and operators) for desktop users.

[Live Demo](#) [GitHub](#)

Twitter Clone (UI)

- Recreated Twitter's homepage layout including sidebar, feed, and trends section.
- Used Tailwind CSS utility classes for faster styling.
- Designed responsive layouts for mobile, tablet, and desktop devices.

[Live Demo](#) [GitHub](#)

Spotify Clone (UI)

- Built music player interface with sidebar navigation and playlist cards.
- Added hover effects and smooth transitions for interactive feel.
- Designed responsive layouts for mobile, tablet, and desktop devices.
